

## **Brighton Substation Project Construction Update – Roadway Restoration**

Dear Neighbor,

As part of our everyday effort to deliver safe, reliable, energy to our customers and communities, Eversource is preparing to complete the Brighton Substation Project. This project is one of several designed to improve the reliability of the electric system serving the Greater Boston area where we all work and live.

### **What to Expect**

Beginning Wednesday, June 26, crews will be milling portions of Arsenal and North Beacon Streets. This work will occur between the hours of 8am – 4pm and will include portions of Arsenal Street from Beechwood Avenue to Louise Street and portions of North Beacon Street from Louise Street to Charles River Road. Arsenal Street and North Beacon Street will remain open during the milling process, but drivers should expect traffic delays. Louise Street, Frank Street, and Beechwood Avenue will be open to residents only. For access between North Beacon Street and Arsenal Street, vehicles will use Irving Street.

During this phase of restoration, parking restrictions will be in place from 8am – 4pm and will be posted in advance. Due to weather or other unexpected circumstances, work hours may be extended, or work may be performed on alternate days.

### **Our Commitment to You**

We are committed to being a good neighbor and doing our work with respect for you and your property. For more information about this work, please call the Eversource Transmission Information Line at 1-800-793-2202, or send an email to [TransmissionInfo@eversource.com](mailto:TransmissionInfo@eversource.com). You may also contact the Eversource Outreach Representative, Christina Thomas, at 617-564-9132 or [christina.thomas@eversource.com](mailto:christina.thomas@eversource.com). Thank you.
