Fax: 617-972-6402

July 17, 2017

IMPORTANT NOTICE

Dear Residents and Abutters of Dartmouth Street,

The Town of Watertown has contracted the services of D'Allessandro Corporation to repair the sewer system in your neighborhood. This work is part of ongoing efforts by the Town to improve the sewer system infrastructure throughout Watertown and is scheduled to begin Wednesday, July 19, 2017. The method of repair will require the Contractor to replace the sewer pipes by excavation methods. Driveway access may also be interrupted during the construction period. Please seek alternate parking arrangements for daytime working hours and the Police Department has been notified of the construction work in the area.

The Contractor will attempt to accommodate all residents to minimize the impact during construction.

Please be aware that **"No Parking"** signs will be posted approximately 24 hours prior to work banning on street parking and the contractor is scheduled to begin the work next week. The date and time frame of the "No Parking" ban will be identified on the posting.

If you have any questions or concerns regarding this project, contact the Watertown Department of Public Works at (617) 972-6420.

The Town of Watertown thanks you for your cooperation.

Sincerely,

Gerald S. Mee, Jr.
Superintendent
