

May 2, 2017

Dear Neighbor:

On May 17, 2017 at 7pm, Eversource and National Grid will be hosting a meeting in the Richard E. Mastrangelo Council Chamber, Administration Building, 149 Main Street, Watertown, MA, in order to provide an overview of underground construction projects both companies have slated for 2017 in and around your neighborhood. The projects will involve construction along parts of Louise Street, the intersection of Louise and Arsenal Streets and the corridor of North Beacon Street between Louise Street and School Street. Representatives from both companies will be in attendance to provide a project overview and to answer questions related to construction.

Should you have any questions about these projects, please feel free to contact the appropriate representative below.

| Eversource Community Relations:    | 781-314-5023 |
| National Grid Community Relations: | 781-907-3804 |

Thank you for your attention to this matter.

Very truly yours,

**The Community Relations Teams at  
Eversource and National Grid**
