NOTICE OF CONSTRUCTION LEXINGTON STREET GAS MAIN INSTALLATION

April 12, 2018

Dear Lexington Street Abutter:

The Watertown Department of Public Works announces that National Grid will be starting construction to install a new plastic gas main along Lexington Street from Orchard Street to Warren Street in order to replace an aged gas main.

You are receiving this notice since you are an immediate abutter to the project area. The project will include construction activities such as excavation and backfilling, paving, services renewals, restoration of disturbed surface areas, traffic control, and site clean up.

Contractors will be performing the work on behalf of National Grid. Feeney Brothers Excavation Corporation of Boston, MA will be responsible for excavation, backfilling and restoration.

Work is proposed to begin Tuesday, April 17, 2018 and is anticipated to be complete in five months. Final cleanup and paving restoration activities will be necessary.

Work hours will generally be between 7:00 am and 4:00 pm Monday through Friday, with the potential for Saturday work. There may be dust and/or noise generated by the work and minor traffic / detour inconveniences. Existing gas services will be disrupted when new installations / connections to the new gas main must be made.

Should you have any questions concerning the project, please contact National Grid at 781-907-3804. If the Watertown Department of Public Works can be of any assistance, please feel free to contact the DPW at 617-972-6420.

We appreciate your cooperation and patience throughout the duration of this project.

Gerald S. Mee, Jr.
Superintendent of Public Works
