

Request for Consideration for the Planting of a Public Street Tree or Front Yard Tree

Date: _____

Address for tree planting: _____

Kind of tree requested: _____

Name of requester: _____ Phone #: _____

Email address: _____

Address of requester if not same as above: _____

If your address is not the same address for the tree, please obtain approval of your request from the resident and include their name and phone #.

Are there overhead wires at this location? YES / NO

Is there a tree pit or grass-planting strip at this location? YES / NO

Preference as to tree or location that you would like considered:

This form will put the above location on a list to be inspected and considered for a tree planting. The list is advertised on the Town of Watertown website and D.P.W. website Watertowndpw.org. Determination is made at the time of site inspection as to suitability and need for a tree at that site by the Tree Warden. Many variables go into choosing the correct spot and type of tree for a particular street tree planting.

We ask people who have requested and received trees, planted on town land near their home or within their street facing yards, to donate \$95.00 per tree to our Tree Fund. This amount is a fraction of the cost of planting a tree, but it helps the Town to plant more trees and pay for other items required to manage our urban forest. Participation in this program is not required and in no way will affect the planting of a tree.

Please return this form to:

Town of Watertown

Office of the Tree Warden
Department of Public Works
124 Orchard Street

Watertown, Massachusetts 02472
