SUBSTANDARD WATER SERVICE REPLACEMENTS

Olcott Street #84 & #76 King Street

Dear Residents and Abutters of Olcott Street and #84 and #76 King Street:

The Watertown Department of Public Works and our contractor Paolini LLC, would like to inform you that we will be replacing *only* sub-standard (cement lined and/or cast iron) water services on your street

Replacements and upgrades will include only the water service pipe from the town water main to the curb stop (usually in the sidewalk area). The work for each home will require approximately 3-6 hours to complete.

Weather permitting, work will begin on Tuesday, July 13, 2021.

Based on our records, work is anticipated at the following house services, in the following order:

#60, #57-59, #50, #45-47, #39, #32, #13-15, #20 Olcott Street
#84 & #76 King Street

If your address is not listed, then our records indicate your water service is copper in the street and does not require replacement.

The Watertown Police will be informed of the construction and its effects. Typical hours of construction work are from 7:00 AM to 4:00 PM.

Should you have any questions, you may call Public Works at 617-972-6420.

Sincerely,

Gregory St. Louis, PE
Superintendent of Public Works
