NOTICE OF CONSTRUCTION Lexington St GAS MAIN INSTALLATION

March 29, 2019

Dear Lexington St Abutter:

The Watertown Department of Public Works announces that National Grid will be continuing construction to install a new steel gas main along Lexington St from Orchard St to Warren St in order to replace an aged gas main. This project is a continuation from last year 2018.

You are receiving this notice since you are an immediate abutter to the project area. The project will include construction activities such as excavation and backfilling, paving, services renewals, restoration of disturbed surface areas, traffic control, and site clean up.

Contractors will be performing the work on behalf of National Grid. Feeney Brothers Excavation Corporation of Boston, MA will be responsible for excavation, backfilling and restoration.

Work is proposed to begin on Wednesday April 3rd, and is anticipated to be complete in six months. Final cleanup and paving restoration activities will be necessary.

Work hours will generally be between 7:00 am and 4:00 pm Monday through Friday, with the potential for Saturday work. There may be dust and/or noise generated by the work and minor traffic / detour inconveniences. Existing gas services will be disrupted when new installations / connections to the new gas main must be made.

Should you have any questions concerning the project, please contact National Grid at 781-907-3804. If the Watertown Department of Public Works can be of any assistance, please feel free to contact the DPW at 617-972-6420.

We appreciate your cooperation and patience throughout the duration of this project.

Gerald S. Mee, Jr.

Superintendent of Public Works
